

HubSpot's Website Grader

Report for jamesstudio.com

September 13, 2009 at 3:33 PM

[Put this badge on your website ->](#)

A website grade of **67/100** for **jamesstudio.com** means that of the hundreds of thousands of websites that have previously been evaluated, our algorithm has calculated that this site scores higher than 67% of them in terms of its marketing effectiveness. The algorithm uses a proprietary blend of over 50 different variables, including search engine data, website structure, approximate traffic, site performance, and others.

The website **jamesstudio.com** ranks **500,045** of the **1,516,286** websites that have been ranked so far.

The software is constantly being upgraded and the algorithm enhanced. The number of potential recommendations provided by the tool is also increasing frequently. Please check back often.

I. On-Page SEO

On-Page SEO is the process of placing your selected keywords in the right places on your web pages. On-page SEO involves changing page titles, headings, content, and URLs to improve search engine rankings.

A. Metadata

Metadata tags allow you to tell the search engines what your web page is about. [Learn more](#) about metadata and why it's important.

Page Title:	James Studio Photography Madison Wisconsin
Meta Description:	Portrait Journalism: photography that mixes both modern & classic styles of shooting in Madison Wisconsin
Meta Keywords:	madison wedding photography, madison weddings, wisconsin photography, wi wedding photography, milwaukee wedding photography, milwaukee photography, blackhawk church photography, queen of peace photography, our redeemer photography

B. Heading Summary

Similar to how newspapers and magazines use headings and sub-headings to help readers, websites can use special tags in their HTML. These tags not only help human readers read the content, they also help search engine spiders better understand the content on a page and what is most important. It is generally a good idea to use heading tags to help signal to the search engines, what the web page is about.

Total headings found: 7. [See details.](#)

C. Image Summary

Images are a great way to enhance a website from a user's perspective. However, it is important to note that search engine crawlers cannot really "see" images. So, if you have lots of images that contain textual content within the image itself, this content will not be seen by the crawlers.

HTML helps address this issue by providing a way to specify the textual content for an image using the "alt" attribute. The alt attribute allows web pages to assign specific text as the "alternative" content for images for those that cannot view the images themselves. This can be search engine crawlers or text-only web browsers.

Total images found: 8. 9 images don't have ALT text. [See details.](#)

D. Interior Page Analysis: 3 Pages Processed

We looked at a few other pages on your website to see how well they are optimized. This sort of interior page analysis can reveal exciting opportunities for you to target specific keywords or visitors. You can then create landing pages optimized towards converting those visitors into customers.

Page	Keywords	Description
James Studio Photography Madison Wisconsin	madison wedding photography, madison weddings, w ...	Portrait Journalism: photography that mixes bo ...
James Studio Photography	-- missing --	-- missing --
About James Studio Photography	-- missing --	Glad to be of service Pretty easy-going 54 yea ...

E. Readability Level: Secondary / High School

This score measures the approximate level of education necessary to read and understand the web page content.

II. Off-Page SEO

Off-Page SEO includes all the things you do to promote your website outside the design of the website itself. Getting more inbound links to your site, registering with directories relevant to your industry, and getting more pages into the search engine indexes are all parts of Off-Page SEO.

A. Domain Info

Most experts agree that you should register your domain for a long time, because search engines factor domain "stability" when looking at your pages.

Domain Age:	9 months, 16 days
Time To Expiration:	2 months, 14 days

The domain for this website is set to expire in less than a year (2 months, 14 days).

We would suggest renewing this domain with your registrar. Google and other search engines may penalize websites with domains that are set to expire soon. The reason for this is that many spam sites are often registered for short periods of time. Most registrars support paying upfront for several years and the cost is usually only about \$10-\$20 per year, so it is generally worth it.

B. Google PageRank: 0

"Google PageRank relies on the uniquely democratic nature of the web by using its vast link structure as an indicator of an individual page's value. In essence, Google interprets a link from page A to page B as a vote, by page A, for page B. But, Google looks at more than the sheer volume of votes, or links a page receives; it also analyzes the page that casts the vote. Votes cast by pages that are themselves important weigh more heavily and help to make other pages important." - From Google

C. Google Indexed Pages: 2

This number is the approximate number of pages on **jamesstudio.com** that have been stored in the Google index. The Google web crawler will visit the website periodically and look for new content for its index. Generally, the more pages your site has within the Google cache, the better.

D. Last Google Crawl Date: September 07, 2009 @ 07:07 PM (GMT)

Google will periodically crawl websites looking for new and updated content. In general, you want Google to crawl your site as often as possible, so your new content shows up in Google search results immediately.

E. Traffic Rank: Top 2.77 %

[Alexa](#) is an online service that measures traffic for millions of sites on the Internet in a similar way to Nielsen television show ratings.

Your website has an Alexa rank of **776,729** which is in the top **2.77 %** of all websites.

F. Inbound Links: 14

One of the most important measures for a website is how many other sites link to it. The more links the better. Having links to your website from authoritative resources on the Internet helps you rank higher in search engines since these links are an indication that your website is trustworthy and contains good content.

[Learn more about building inbound links to your site.](#)

III. Blogosphere

Bloggng makes sense from a marketing perspective. You'll be leveraging the shift from [outbound to inbound marketing](#) and interacting with your customers in new ways. A blog lets you meet your customers more directly than sending out brochures or an email campaign. It changes your website from a brochure that most people look at once to something that people interact with and come back to. [Learn more.](#)

A. Blog Analysis

Bloggng is a great way to reach your target audience with your thoughts, opinions, and offerings on relevant topics.

Blog Found

Blog URL: <http://www.jamesstudio.com> (Last Post: September 12, 2009)

B. Blog Ranking: Not Ranked

[Technorati](#) is a popular blog directory service. It measures the popularity of a given blog as compared to all other sites that have been submitted to its system. We did not find this blog in the Technorati system. You should sign up and submit your blog on technorati.com, it's free.

C. Recent Blog Articles
